Swedish Luth. Emanuel Congregation
 Kenneth Bescher, Pastor.
 Services will be held in the Advent church Sunday morning at 11 o'clock. All the members are requested to be present.

It is an old usage in the Scandinavian countries to celebrate the Midsummer day, therefore the Swedish Luthrans will have a Midsummer festival at the farm of Frank Stroberg three-fourth of a mile southeast of Birdwood switch, Friday, June 30. Dinner will be served to all present at the small charge of twenty-five cents. An ice cream stand will be erected. A fine program will be rendered in both the Swedish and English languages.

We are all expecting a very pleasant day. Those who desire to partake in the festival will meet at the court house campus at 9:30 where means of transportation can be had.

Owen O'Neil who had his adnoids and tonsils removed at Mayo Bros. hospital in Rochester, Minn., is getting along nicely. His son Carl who submitted to an operation for internal injuries is also progressing nicely.

M. J. Forbes motored to Hastings last week to attend the state convention of funeral directors and following his arrival home started out on a trip in his car to Scotts Bluff via Kimball and returning by way of Sidney. Tomorrow at midnight in "Old Virginia" the Custer act will go into effect. This provides that all officers who do not carry out the laws will be removed from office. Among the laws of Virginia is the Sunday blue law which prohibits the sale on that day of newspapers, cigars and tobacco, and will result in the Sunday closing of automobile garages.

North Platte people were probably not aware that the storm Wednesday night was a menace to them. The cloud as disclosed by the lightning and viewed from eight miles south of town was perfectly funnel shaped but unfortunately it swung horizontal instead of perpendicular. Viewed from the above distance it was about the most wicked looking cloud we have ever seen.

Keith Neville, who is attending the national democratic convention in St. Louis is being recognized by being interviewed as to his views on certain speeches and phases of democratic principles. His candidacy for the governorship of Nebraska is bringing him into the limelight and promises to be in the future one of the national leaders in his party in the Trans-Missouri country.

C. C. Hupfer, A. W. Plamer, Chas. Herrod, Henry Rebhausen and Ira L. Bare spent Wednesday afternoon at Liston's lake in a vain attempt to secure a mess of fish, but by reason of rains having flushed the lake with wash from the surrounding hills and furnishing a temporary supply of food, the bass, the croppie and the bullhead absolutely refused to partake of the tempting bait offered. The party motored into a very heavy rain at Dickens, narrowly missed a hail storm that swept west of the Liston ranch, and when eight miles south of town caught the tail end of the rain which visited this city about ten o'clock. Much of the distance was plowed through water that filled the roadway.

We Believe the Maxwell is Greatest Motor Car Value on the Market

BUT our opinion would not be of any particular importance to you if it did not coincide with the facts. We only want you to look the market over carefully. Then we absolutely know that you will agree with us.

In the first place there is the remarkable Maxwell engine. No four cylinder motor of its size has more "pep" or go to it regardless of the price of the car it drives. It will climb hills on high gear in a manner that will astonish you. It is quiet and works day in and day out with a sound, business-like hum that is good to hear.

Any engineer will compliment the design of the chassis. And those who are not engineers cannot fail to note its simplicity and staunch construction. As for what it is made of, we can truthfully say that better material cannot be bought.

The operation of the car is simplicity itself—the brakes are powerful—the springs are long and flexible—the axles are strong and the steering apparatus, like the rest of the chassis, is built to stand the most severe service the car may ever have to face, wherever or however it is used.

Then if you consider looks important, and most people do, you will not find a more attractive car than the Maxwell at anywhere near the price.

And it comes to you fully equipped with all the attachments you will ever want or need; electric starter and lights, demountable rims, one man top, self-ventilating, rain-vision windshield, etc. All for \$655 (five passenger touring car) or \$635 (two passenger roadster).

We know you can't beat it.

Touring Car \$655

Roadster \$635
